About us

P.Shale FZE for Electrical and Mechanical specialized in Oil & Gas sector, incorporated in RAK Free Zone-UAE with office in Dubai. Over the past decade, **P.SHALE** has successfully executed Electrical and Mechanical contracts for a wide range of clients, multinational companies, throughout its Group of Iraqi companies.

Our vision to become Iraq's prime electrical and mechanical engineering solutions, **P.SHALE** offers a wide range of electrical construction and installation services that allow us to respond to various client needs. **P.SHALE** is an expert in the fields of life safety, testing, and electrical infrastructure under one roof and passed on to our customers in the form of efficiently built, high-quality projects.

P.SHALE adheres to the principles of integrity, consistency and excellence, enabling us to ensure the delivery of consistent, merely, responsive, safe and high-quality Electrical & Mechanical solutions.

Mohammed Abdulhadi
Managing Director

▮ Mission and Values

"To serve the esteemed clients and to contribute to rebuilding Iraq and support Oil & Gas companies working in Iraq with excellent services.

Our Values are clear:

Safety – Embracing a culture to Protect our employees & Clients

Integrity – Being Honest & doing what is right

Talent – Keeping the best

Quality – Delivering what is required

Customers – follow up & healthy communication with client

Result – meet Customer satisfaction

▮ Financial Stability

P.SHALE Continuously doing successful projects & business in Iraq. Our multiple business lines, projects & customers have allowed us to develop a stable and reliable business. Our financial stability allows us to operate debt free supporting numerous contracts over all regions of Iraq.

▮ Commitment to Safety, Health and Environment

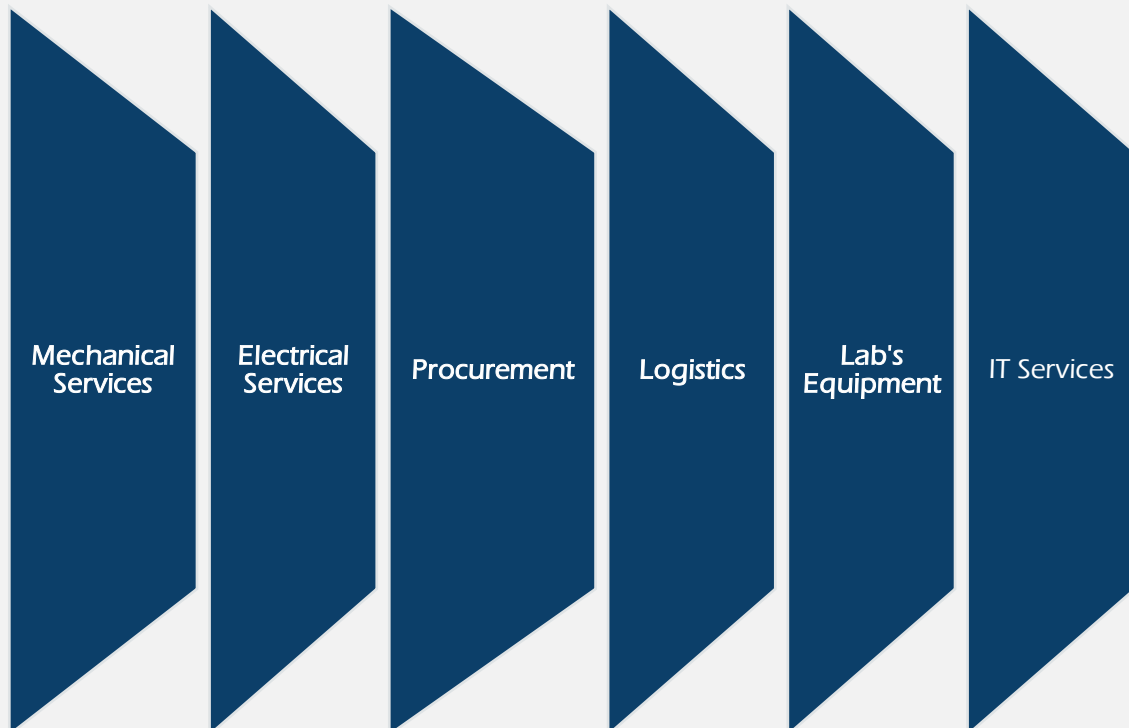

P.SHALE foster a culture that is founded on putting safety first. Our continuous development of safety controls ensure that work is performed using safe work practices and adherence to environmental control. From Basic workplace safety measures to handling Hazardous. **P.SHALE** continuing training to their staff to improve their safety skills to execute work complying with OSHA standards and client's requirements.

Services

P.SHALE is well-known as a dependable and timely provider for Commercial & Government entities operating in the fast-paced and ever-changing environment of Iraq.

We offer you:

P.SHALE is built upon the strengths of several individual, complimentary areas of expertise which create a cohesive "team" enabling us to successfully accomplish tasks as a single, interconnected and seamless organization.

P.SHALE draws from the background of real-world extensive experience in Iraq. With our intimate knowledge of Iraqi culture and laws, we can easily navigate through the rules and regulations of this unique work environment. We maintain legitimate local connections to the tribal leaders and community to obtain the best deals, Quality, and timely delivery of goods & services.

Mechanical & Electrical Services

P.SHALE has extensive construction experience developed over the years of operation. P.SHALE can cover below types of Projects:

- Mechanical & Electrical works
Medium & Low Voltage Projects
- Synchronization
- Sourcing and delivery for different types of electrical & mechanical parts including Ex-proof items

Procurement & Logistics

P.SHALE has expert procurement team that can source just about anything ever needed on a project. Leveraging our regional and international procurement resources and supplier networks, **P.SHALE** offers wide range of supplies based on number of partners and on the years of experience in Iraq. Our skilled Procurement team is very familiar with the customs requirements and processes enabling us to clear commodities from customs in a timely manner. Through our procurement function in Dubai, Amman, Baghdad, Basra, UK, US and China we can procure goods globally giving our customers access to items not readily available on local markets.

Labs, equipment calibration & testing

P.SHALE serves as a vital & trusted partner for customers in construction, industrial, oil & gas, governmental & manufacturing business across Iraq. We provide high-quality, turnkey solutions to solve equipment needs including Portable labs, Valves and equipment Calibration. **P.SHALE** provides services with qualified operators and the support of local maintenance teams keeping work without lengthy delay for parts or outside repairs. Equipment available includes but not limited to:

- Gas testing lab
- Oil Testing lab
- Water testing lab
- Valves and Testing Equipment

Proven Track Record

Over the Past decade, **P.SHALE** & our Partners have successfully executed numerous electrical and mechanical contracts for a wide range of clients, including various government agencies, organizations and multi-national companies, and military establishment.

- 5- Cascade System
- 6- Decommissioning
- 7- Training

Specialist expertise coupled with commitment – ACCURO has prided itself in this motto since it was founded in 1976. Our unique market position today allows us to offer our customers the best solutions for the required applications whether if it is a sprinkler system for a warehouse in Vienna, a gas extinguishing system for a power plant in the andes, or a foam extinguishing system for an oil depot in the sahara. ACCURO can design and supply a suitable extinguishing system to meet every requirement and guideline. ACCURO supplies what the customer needs – not what we need to sell from our own production.

Established in 1999, HiTech Fluid System is one of the leading providers of quality drilling fluids and related chemicals for the petroleum industry.

The Aphron Fluids produce a unique wellbore sealing mechanism incorporating highly energized and pressure resistant microbubbles. This unique sealing mechanism not only allows these fluids to solve fluid loss problems in depleted, porous, and/or fractured reservoirs. They also allow operators to drill multi-pressured zones, including sensitive shales, in one interval, with one fluid type, without the typical problems associated with placing heavier weight fluids across lower pressured zones.

Takenaka Seisakusho and GSI Creos Corporation, have jointly established a Middle East affiliate called 'TAKENAKA MIDDLE EAST LLC' (TME) thanks to deep support by RAS AL KHAIMAH ECONOMIC ZONE (RAKEZ), a government entity of Ras Al Khaimah (RAK). TME offers special coating service based on well-advanced paint system having ultra-high anti-corrosion performance with tremendous mechanical properties on any kind of metallic parts. The company, which will manufacture well advanced anti-corrosion materials used primarily in the oil-gas industry, was officially incorporated on 2 November 2016 in Ras Al Khaimah.

This advanced coating system shall contribute ultra-long life of anymetallic parts used in UAE as well as GCC countries.
